

Photovoltaic cell module manufacturing companies

Overview

Photovoltaics companies include PV capital equipment producers, cell manufacturers, panel manufacturers and installers. The list does not include silicon manufacturing companies. This is a list of notable photovoltaics (PV) companies. Grid-connected solar (PV) is the fastest growing energy technology in the world, growing from a cumulative installed capacity of 7.7. China now manufactures more than half of the world's solar photovoltaics. Its production has been rapidly escalating. In 2001 it had less than 1% of the world market. In contrast, in 2001 Japan and the United States combined had over 70% of world production.
